Azaporphyrins: structure of the reaction centre and reactions of complex formation 41 | Heterogeneous systems
Application of transition metals in hydroformylation. Annual survey covering the year 1994 547 |
| Core potential studies
Effective core potential studies of transition metal bonding, structure and reactivity 87 | |

Homogeneous systems

Application of transition metals in hydroformylation. Annual survey covering the year 1994 547

Hydroformylation

Application of transition metals in hydroformylation. Annual survey covering the year 1994 547

Indium

Poly(pyrazolyl)borate complexes of gallium and indium 571

Inorganic antimony complexes

Structural patterns in inorganic and organoantimony derivatives of oxo- and thiodiorganophosphorus ligands 117

Lanthanides

Lanthanides and actinides. Annual survey of their organometallic chemistry covering the year 1993 373

Mechanisms

Reactivity of mononuclear rhodium(II) compounds 209

Metal complexes

Polypyrrole films containing metal complexes: syntheses and applications 339

Mononuclear cluster complexes

Chemistry of 2-(diphenylphosphino)pyridine 1

Mononuclear rhodium(II) compounds

Reactivity of mononuclear rhodium(II) compounds 209

Nitriles

Reactions of transition metal-coordinated nitriles 299

Organic synthesis

Transition metals in organic synthesis highlights for the year 1994 443

Organoantimony complexes

Structural patterns in inorganic and organoantimony derivatives of oxo- and thiodiorganophosphorus ligands 117

Organometallic complexes

Organometallic complexes of heterocycles II. Complexes of pyrazoles 247

Phthalocyanines

Azaporphyrins: structure of the reaction centre and reactions of complex formation 41

Polymer coatings

Polypyrrole films containing metal complexes: syntheses and applications 339

Polypyrrole films

Polypyrrole films containing metal complexes: syntheses and applications 339

Porphyrins

Azaporphyrins: structure of the reaction centre and reactions of complex formation 41

Pyrazole complexes

Organometallic complexes of heterocycles II. Complexes of pyrazoles 247

Reactivity

Reactivity of mononuclear rhodium(II) compounds 209

Sulphur analogues

Structural patterns in inorganic and organoantimony derivatives of oxo- and thiodiorganophosphorus ligands 117

Synthesis

Early transition metal thiolates 147

Transition metal complexes

Reactions of transition metal-coordinated nitriles 299

Transition metals

Effective core potential studies of transition metal bonding, structure and reactivity 87

Transition metals in organic synthesis highlights for the year 1994 443
